WASHINGTON.

Cleveland's Civil Service Letter
Strikes Terror to Partisan
Political Clerks.

Wealthy Washingtonians Decidedly
Charitable—President Arthur
Wants the Senatorship
for a Fulcrum.

Series of Astronomical Observations
at the Naval Observatory—Public Debt
Decreased.

THE PRESIDENT ELEGANT.

His Recent Letter is Said to Have Scared
Several Political Clerks Badly—More Expected From Him Soon.

Special to the Sentinel.
WASHINGTON, Dec. 31.—It was stated here to-day that Governor Cleveland was given opportunity by arrangement to expound his civil service views in the letter to Curtis, and that it is arranged that he is to go further in the matter before his inauguration, so that the people of the country will understand him fully before he takes hold of the helm.

As generally interpreted the letter shows Mr. Cleveland to be the sort of man he has been universally represented to be—hard-working, business-like, in. Beyond doubt he means that the Federal officials must do one thing at a time if they would save under him—that is, attend to their duties and let the politicians manage politics.

New York men say that the letter is characteristic of the writer. They believe he means to divide politics and the management of the Government's affairs. One said to-day that Mr. Cleveland would not permit a member of his Cabinet to look after his own or anybody else's campaign, nor allow a \$1,000 clerk to run an errand in politics; that the line would be drawn next to the door of the White House. He is a manipulator of political affairs, and will steer the ship of State clear of trouble during the next four years.

If Mr. Cleveland writes another letter as strong as this one he will frighten some of the unwary clerks here entirely out of their wits. They are badly scared now.

THE POOR OF WASHINGTON.

A Great Amount of Charity Being Displayed by Washington Officials Toward the Poor.

Special to the Sentinel.
WASHINGTON, Dec. 31.—Withal Washington is a charitable place. During the holidays the poor people here have fared as well, if not better, at the hands of the wealthy than they are wont in other large cities throughout the country.

The men highest in political circles encouraged their wives and children to attend the entertainments for the needy and to feed the hungry. The daughter of the President, a little girl fourteen years old, led the movements of charity among the young people, and handed out live off the errors of the giftless and unfortunates. One-third of the population are negroes, and they are nearly all poor. The whites here fared better, however, and are fewer in population.

All these were fed and clothed, and made happy during the holidays. The cabinet officers, Senators and others in elevated ranks extended unstinting hands. For ten days their homes were the asylums of the poverty-stricken. Good nature has abounded, and for some reason there has been more general liberality than has been known for decades.

A Phase of the Office-Seeking Idea Illustrated.

Special to the Sentinel.
WASHINGTON, Dec. 31.—As illustrative of the common-place way in which some political aspirants view office-getting, Commissioner of Internal Revenue Evans has received the following letter from an ambitious individual in one of the Central States:

DEAR SIR—I wrote you some time ago in reference to the Collectorship of Internal Revenue of this district. The information asked was amount of bond required and salary of office, and also what counties are included in the district.

Yours respectfully,
Commissioner Evans has answered the letter, and promises that if the fellow doesn't address him he will his successor, requesting that the commission for the office be forwarded.

President Arthur Still Waging His Campaign for the Senatorship.

Special to the Sentinel.
WASHINGTON, Dec. 31.—The President is still waging his campaign in New York for the United States Senatorship. A gentleman fresh from that State said to-day that there was a movement being made in the city of New York of those who advocated Mr. Arthur's nomination at Chicago to have him elected to the Senate at all hazards.

He will provide an outlet for the over-population of Germany, and for German trade and enterprise.

Consulting American Bishops.
Rome, Dec. 31.—The Pope has consulted the American Bishops as to the advisability of appointing an American rector, instead of an Italian, for the North American College at Rome.

Violations of Law.
London, Dec. 31.—The Pall Mall Gazette says: "It is believed there is a constant violation of the foreign enlistment act at Hong Kong. This comes about through the power

and disbursements heavier than usual. Payments on account of pensions amount to over \$8,000,000.

A Series of Astronomical Observations to be Made.

WASHINGTON, Dec. 31.—A series of astronomical observations will soon begin at the Naval Observatory to determine with the utmost nicety the latitude of the institute, or to speak more exactly, the latitude of a certain telescope which will be used in the process. A naval officer has been detailed to perform the duty, which may require two years for its completion—one year for observation and another to work up the results mathematically. A similar series of observations will be made of Portuguese astronomers at Lisbon, and ultimately at the national observatories in several other parts of the world. The purpose of these undertakings is to secure a standard by which comparisons may be made between the results of the geological changes which are supposed to be taking place in the interior of the globe have altered the position of its center of gravity.

FOREIGN NEWS.

THE EARTHQUAKE IN SPAIN.

Further Shocks Reported From the Land of the Old—More Victims Discovered as the Debris is Removed.

MADRID, Dec. 31.—Further earthquake shocks were experienced yesterday at Velaz, Malaga, a city of 13,000 people, a few miles from Malaga. The shocks were of much violence. Many houses were utterly destroyed. The people became terror-stricken and abandoned the city altogether. They are now camped outside of the town, and the telephone station has been removed to the same place.

A thousand houses at Alhama are in ruins. The work of searching the debris for dead bodies of victims of the disaster was vigorously prosecuted yesterday. During the day 192 bodies were recovered.

Shocks yesterday were also felt more or less severely elsewhere throughout the province of Malaga and through Granada. They occurred between the hours of 7 and 10 in the morning. There was further loss of life and property at Periana, Riogordo, Vinnia, and Alifanet.

It is estimated that the total number of persons killed since Christmas is 2,000.

The town of Albuquer is completely destroyed, and many people perished, among whom were several local officials.

A subscription for the relief of the sufferers has been started in Madrid, Malaga and Granada. The King subscribed \$5,000.

The Earthquake Fault Increasing.

MADRID, Dec. 31.—The panic caused by the earthquake is increasing at Alhambra, Granada, Tarazona and Velez. At Malaga the inhabitants are still encamped in the fields. The museum, university, hospital, prison and government offices are more or less severely damaged.

Heavy Shocks and Great Mortality.

MADRID, Dec. 31.—The shocks yesterday in Granada and Malaga were very disastrous and attended with heavy mortality.

GENERAL FOREIGN NEWS.

The Examination in the Janzen Case Continued.

LIVERPOOL, Dec. 31.—The judicial examination in the case of the second mate, William Rauscher and Boatswain Ferdinand Kelpin, of the American ship, E. Chapman, arrested at Berkenhead ten days ago, on the charge having murdered a Russian seaman named Janzen, which was begun yesterday, was concluded to-day. The seamen testified to numerous acts of cruelty on the part of the Captain and other officers. Janzen, testified that San Francisco in good health. In one instance he was compelled to carry a heavy capstan bar for hours, and was dragged out of his bunk on the morning the fatal outrage occurred, severely flogged before he was lashed to the forecastle beams, the exposure there for two hours coming as a culmination of the long continued ill treatment to which he had been subjected was too much for the poor fellow. The prisoners were commanded to await further action.

Australian Colonists Protest Against the German Annexation.

MELBOURNE, Dec. 31.—James Service, Prime Minister of the colony, has sent the Governor of Victoria a note recounting the assurances of the imperial government that a settlement by a foreign power in New Guinea was impossible and would be regarded as an unfriendly act. "In consequence of these assurances," the Premier says, "the colonists confided in the government to protect their interests. It is only just to suppose the Germans annexed without the knowledge of the government. The colonists are indignant that while forbidden to act themselves, the government should allow Germany to step in."

The Premier and the Governor have sent a telegram to Earl Derby, Imperial Colonial Secretary, urging him to telegraph authority to Australia to take the necessary steps to secure the islands remaining available, and conveying a vigorous protest on behalf of Victoria against the inaction of the imperial government.

Will Proclaim War.

LONDON, Dec. 31.—The Pall Mall Gazette says that France intends issuing a large loan in January, 1885, unless Ferry shall speedily settle the Tonquin difficulty. France will then declare war on China, in order to avoid the complications arising from the present anomalous position in the East.

Eulogizing Bismarck.

PARIS, Dec. 31.—The Temps eulogizes the colonial policy of Bismarck, and says: "He will provide an outlet for the over-population of Germany, and for German trade and enterprise."

Consulting American Bishops.

Rome, Dec. 31.—The Pope has consulted the American Bishops as to the advisability of appointing an American rector, instead of an Italian, for the North American College at Rome.

Violations of Law.

LONDON, Dec. 31.—The Pall Mall Gazette says: "It is believed there is a constant violation of the foreign enlistment act at Hong Kong. This comes about through the power

erful local interest of the traders and artisans, who make large profits by supplying the French men-of-war. The authorities are unable to enforce the law.

Meeting Proclaimed.

DUBLIN, Dec. 31.—The Nationalist demonstration, announced to take place at the village of Cool Island, County of Tyrone, has been proclaimed by the authorities, because a counter demonstration was threatened, and it is feared a collision might occur. Extra police has been sent to Cool Island.

Insurrection Imminent.

CONSTANTINOPLE, Dec. 31.—The fires of insurrection are smoldering among the populace of this city. The posting of additional placards is a nightly occurrence. A body of Turks attacked a mail near Pera, a town in Macedonia, and killed and wounded several persons.

The Formosa Blockade.

HONG KONG, Dec. 31.—Two French ships have gone to Formosa. There are no blockading ships at Taiwan, on the southwestern coast of Formosa, so intercourse with that part is unobstructed. Blockade running with the ports on the northern coast is active.

Wants to Govern the Congo State.

BERLIN, Dec. 31.—The National Zeitung says it is King Leopold's wish to see one of his father's descendants govern the Congo State. It is proposed that the seat of the supreme government for that country shall be Brussels, with an international council in control.

Defalcation in Cyprus.

LONDON, Dec. 31.—Advices from Larnaca, Cyprus, say defalcations amounting to \$250,000 have been discovered in the revenue department. Many officials have fled to Asia Minor. Some of the account books have been destroyed.

Beatrice Still to Reside With the Queen.

LONDON, Dec. 31.—The Queen has sent a dispatch to the residents of Balmoral, stating that the Princess Beatrice will still reside with her after her marriage to Prince Henry, of Battenberg.

Anniversary of Gambetta's Death.

PARIS, Dec. 31.—Crowds of people visited the Ville d'Aureilly to-day, in commemoration of the death of Gambetta, December 31, 1882.

Run Into a Coal Train—The Passengers Badly Shaken Up.

WILKESBARRE, Pa., Dec. 31.—The Elmira passenger train on the Lehigh Valley Railroad ran into a coal train this afternoon. Several coal cars were thrown from the track and the passenger train was derailed. The passengers were badly shaken up. No one injured.

Clara Morris and Troop Escape Unharmed.

JACKSONVILLE, Fla., Dec. 31.—The 749 west bound train on the Savannah, Florida and Western Railroad came in collision with the incoming train twelve miles from this city, causing a serious wreck. Baggage Master Perry, of the Gulf and Gulf, and two soldiers were seriously injured. The Clara Morris troop were on their way to Pensacola, but one of them was hurt. A special train brought the men back to this city.

Work Stopped on the Ice Castle.

MONTREAL, Dec. 31.—Owing to the heavy thaw, work on the ice palace is entirely suspended. It is feared unless it turns colder the work will be of no purpose. It is feared the structure will not be finished in time, but the architect declares the castle can be put up in half the time it took last year. The work can be carried on at night by electric light, if necessary. It is understood the carnival drive will be restricted to fairs, sixes or eights in hand, unicorns, tandems and pairs, with sleighs manned by snowshoes and bobogans. The ice has fallen two inches, and is still falling. The general opinion, however, is that the water will rise again as soon as the cold weather sets in. Merchants along the river front and low localities continue to remove their goods to a place of safety.

A Destructive Fire.

EVANSVILLE, Ind., Dec. 31.—A fire has broken out in Miller Bros' store, in the center part of this city, and there will be an immense fire. The store has entirely consumed Miller Bros', the largest dry-goods house in the city; Schmidt's music store is now burning. The fire totally destroyed Miller Bros' dry-goods house. The total loss of stock is \$180,000 to \$200,000; building \$12,000. Total insurance, \$25,000 to \$30,000 on stock, \$2,000 on building. Charles T. Schmidt, music dealer, total loss, \$14,000; insurance, \$8,500. George S. Sonntag & Co., hardware dealers, loss by fire and water about \$20,000 on stock of about \$15,000; insurance, \$35,750. C. C. Tenny, hardware dealer, loss, \$10,000; insurance, \$5,000.

Brooks & Dickson.

NEW YORK, Dec. 31.—The argument upon the motion of the appointment of a receiver of the property of Brooks & Dickson, theatrical managers, was not heard to-day owing to the fact that the parties have made settlement of the suit brought by James Brooks for a dissolution of the partnership. Negotiations for a settlement followed, and the result was that Randall assigned all his interest in the firm to other parties. Brooks & Dickson then made an assignment for the benefit of their creditors. This puts their property in the hands of an assignee, and as that was all that Brooks was desirous of obtaining by his suit, the proceedings were discontinued and the motion for a receiver withdrawn.

A Chicago Prospector Robbed.

BIRMINGHAM, Ala., Dec. 31.—W. S. Martin, from Chicago, who has been here nearly a month prospecting, had his pockets nearly all stolen yesterday, and nearly \$1,100 taken. An itinerant patent medicine man, J. H. Cooper, who drank with Martin all day yesterday, was arrested while preparing to take the train this morning and searched. Money almost to the amount wanted, and answering Martin's description, was found on his person.

The Blizzard Over, But Very Cold.

STOUT CITY, Ia., Dec. 31.—The blizzard which prevailed in this section yesterday and last night passed over to-day, and was succeeded by severe cold, the thermometer indicating thirteen below at 2 p. m. The railroads were badly blocked, excepting the Sioux City and Pacific, but are being rapidly opened and trains are expected in on all lines to-night and to-morrow. The snow is packed so hard that it can not drift.

GENERAL TELEGRAMS.

The Reception of Randall and Party in the South.

Great and Sweeping Reduction in Telegraph Rates All Over the Country, Foreign Dispatches Also.

Mayor Edson Nominates an Old Schoolmate for Superintendent of Public Works.

RANDALL'S SOUTHERN TRIP.

How the Northern Visitors Spent the Day in Nashville—At Vanderbilt University, Belle Meade, Etc.

NASHVILLE, Dec. 31.—Mr. Randall and party left the Maxwell House at 10 o'clock this morning and proceeded in carriages to the Vanderbilt University, where they were cordially received by the Faculty of that institution. Chancellor Garland received the party and introduced Mr. Randall to the professors and students. Mr. Randall then delivered a speech on education to the students, followed by Hon. Wm. McAdoo on the same subject. A large number of the students were present. After an inspection of the buildings and departments, the party proceeded to Belle Meade, where they arrived at noon. The visiting strangers were introduced by General Jackson, after which refreshments were served. The guests were then invited to a roll through the deer park, where half an hour was spent watching the hundreds of deer scampering through the woods. This was a novel sight to the northern visitors. On their return the party stopped to inspect the famous horses. More refreshments followed and the visitors re-entered their carriages at 1 o'clock and returned to the city.

At 3 o'clock Mr. and Mrs. Randall, Mr. McAdoo and other invited guests, were entertained at dinner at the residence of Mr. Nat Baxter, President of the First National Bank. The invited guests including representatives of every department of life—Supreme Court Judges, ex-Governors, manufacturers, mechanics, capitalists, and all the professions. At night Mr. Randall was entertained at the Hermitage Club, by the leading members of every shade of political opinion, and had a most elegant reception. Ex-Governor James G. Porter is President of the Club, leading citizens being members. Mr. Randall left on the 1 o'clock train for Birmingham, accompanied by a committee as escort from that city.

Preparations for the Reception of Mr. Randall and Party, with an Outline of the Programme.

BIRMINGHAM, Ala., Dec. 31.—The joint committee appointed by local Democratic organizations had arranged to go to Nashville to-day to escort Samuel J. Randall to this city, but just before train time they received a telegram saying it had been decided to send Mr. Randall and party through on a special train, leaving Nashville at midnight to-night, instead of the regular passenger train leaving at 8 p. m., and that it was impossible to accommodate the committee on the cars. The committee therefore did not go. The early hour at which the party will arrive will prevent its fit reception. As the train pulls in the whistles of the railroad locomotives, furnaces, foundries and machine-shops will blow and the Birmingham Artillery will fire a salute. The reception committee and Birmingham Rifles will escort the visitors to the Florence Hotel, where they will be entertained. In the forenoon the party will visit the Pratt mines, the most extensive bituminous coal property in the world. During the afternoon Mr. Randall, assisted by John Martin, Congressman-elect from this district, and Mrs. Martin, and a number of ladies of this city, will receive callers at the Florence Hotel. Friday morning the party will visit the furnace and iron ore mines near the city, down the Louisville and Nashville and Birmingham mineral railroads. In the evening Mr. Randall and McAdoo will speak at O'Brien's Opera House. A banquet at the Florence Hotel will follow. A great number of prominent citizens from other parts in the State have indicated their intention to meet Randall here.

THE B. AND O. TELEGRAPH.

A Sweeping Reduction in Telegraph Rates, Commencing With the New Year.

Special to the Sentinel.

NEW YORK, Dec. 31.—The B. and O. Telegraph Company has made 1884 memorable in telegraphic history by the construction of the greatest number of miles of wire ever known within a period of twelve months. At the opening of the year its mileage was less than 20,000; it is now 47,000, no less than 28,000 miles having been strung from January 1 to December 31. Certainly it would appear beyond all further cavil that the B. and O. has come to stay, and that its permanence was coincident with its progress. The character, too, of the construction is a self-evident fact of solidity. As the majority of the new extensions are of large gauge, galvanized iron wire, with over 4,000 miles of hard-drawn copper wire, which is as much an advance upon the old-time material as is the substitution of steel for iron railroads.

With such a record for the year just closed the B. and O. signalizes the new year with such a wholesale reduction of telegraphic rates as must fairly divide the honors of the day in an interchange of the compliments of the season. The tumble in the tariff is most decidedly a general one, embracing all the great commercial centers within the widely extensive system of the Baltimore and Ohio Company. For instance, between this city, Boston, Providence, Fall River, Newport News, Bedford, Waterbury and other New England points, ten cents for ten words. In order that a full appreciation of the reduction may be had by running comparisons as to the rates

one year ago, can not but prove interesting. To New England points as above, the fall averages from 100 to 300 per cent. The new rate from this city to Philadelphia, Baltimore and Washington, is ten cents for ten words; a cent a word as against a cent and a half a year ago. To Pittsburgh it is twenty cents, a reduction of 50 per cent.; to Buffalo the same, the reduction being 150 per cent.; the same to Cincinnati, Cleveland and Columbus, just one-half the former rate to these cities, twenty cents for ten words to Indianapolis and St. Louis, a difference of 100 per cent., the former rates having been fifty cents. To Chicago the fall is a sweeping one, from fifty cents to fifteen. Really, under the new order of things, it is cheaper to telegraph than to write. From Boston and New England cities the rate to this city under the new schedule is ten cents, and but twenty-five is all prominent Western cities, where a year ago it was from forty to sixty cents. From Philadelphia to Baltimore and Washington the old fifteen-cent rate to this city is reduced to ten cents, and to other points both west and east, to-wit, Chicago, St. Louis, Cincinnati, Pittsburgh, Cleveland, Columbus, Indianapolis, Boston and New England cities generally, twenty cents, a drop ranging from thirty to fifty cents.

From Chicago in all directions the new year marks a swathe out in former tariffs—fifteen cents instead of fifty to New York, same to Cincinnati instead of thirty-five, twenty cents to St. Louis, 150 per cent. less to Philadelphia, Baltimore and Washington, or twenty cents as against fifty, one-half the old rate to Pittsburgh and Columbus, and very nearly as great a reduction to Cleveland and Indianapolis, all these cities coming within the twenty-cent rate. Five cents more takes in all ten-word messages from Chicago to Boston, Providence, Hartford and the New England cities, where the old schedule called for from sixty to seventy-five cents.

The night rate goes down everywhere to the uniform figure of fifteen cents, where a year since it was one-half the day or 7 1/2 rate, with the stipulation that all such messages must not be less than twenty-five cents. Another innovation is the uniform rate of fifteen cents between all city offices. The extensions embraced within the southern system of the B. and O. Company are now nearly completed, and the offices in New Orleans, Galveston and other leading cities South will be opened by February 1. This will give the benefits of a strong and lasting competition to a large section not hitherto enjoying them.

The enormous reductions made by the B. and O. Company will have a direct bearing upon foreign dispatches; the intimate connections existing with the new cable lines of the Commercial Cable Company, which has decreased its ocean tolls 20 per cent., affording direct access with all European cities at the low rates.

The new cable company, like the B. and O. telegraph, is beyond the reach of those who would absorb the telegraphs of the world, it being owned by Messrs. Mackay and Bennett, who are not in the consolidation business.

NEW YORK ALDERMEN.

Mayor Edson Nominates Roland M. Squire and He is Promptly and Unanimously Elected Superintendent of Public Works.

NEW YORK, Dec. 31.—At the session of the Board of Aldermen to-night Mayor Edson put in the name of Roland M. Squire as the nominee for Superintendent of the Department of Public Works. The Board promptly confirmed the nomination by a unanimous vote. Alderman Kirk was absent, and Alderman O'Connor was excused. Roland M. Squire was born in Springfield, Vt., and is forty-seven years old. He and Mayor Edson were schoolmates in Chester, Vt. Mr. Squire began practice in Boston, and was for several years a partner of ex-Collector Simmons of that port. He retired three years ago and came to New York to reside. He has never practiced here, but has lived in retirement at 311 Mott avenue. Mr. Squire is not identified with any political organization. Mayor Edson said to-night that his life-long acquaintance with Mr. Squire made him capable of judging of that gentleman's capacity and character, and he was sure Squire would give complete satisfaction to the people in the discharge of the commissioner's duties.

THE WEATHER.

The Storm in Minnesota and Dakota Has Subsided, Remaining Cold and Clear.

ST. PAUL, Dec. 31.—The storm in Minnesota and Dakota last night gave place this morning to clear, colder weather, with a high wind. Six to eight inches of snow fell, and several night trains were abandoned. The trains on the Northern Pacific and Manitoba Roads arrived nearly on time, and those on the Minneapolis and St. Louis, and Milwaukee and St. Paul were delayed but an hour or two. The outgoing train on the Omaha Road is blocked at St. James, the incoming train on the same road is about twelve hours late. The storm seems to have been worst in the southern part of the State.

CONDENSED TELEGRAMS.

The Pitman Hosiery Manufacturing Company, at Lonslea, N. H., stopped Tuesday night, throwing 150 hands out of employment.

The Philadelphia Grand Jury yesterday found the bill against William T. and Lewis J. Ladner, the suspended bankers, charging them with embezzlement.

The Citizens' Fuel Company struck the best quality of petroleum at a depth of 2,100 feet. Good developments are expected.

The hearing of the representatives of the extension of the time for the payment of the tax on the whisky in bond, which was to have taken place yesterday at the Treasury Department, has been postponed until Saturday.

The injunction issued at Waterbury, Conn., against Henry Bergh, restraining him, as executor, from disposing of any of the property of Miss Carrie Weston, who lost her life in the Rocky Mountains. The injunction is returnable February 2.

INDICATIONS.

WASHINGTON, Jan. 1.

For Tennessee and the Ohio Valley—Partly cloudy weather, local rains or snows, followed by clearing weather, lower temperature, northerly winds.

Upper Lake Region—Clearing weather, lower temperature, northwest winds.
